# Challenges of Air Freight in Bangladesh

- Major incompetence in the area of space and capacity provided by the Airline.
- It has been tough to get wise and realistic air freight in the market. And simultaneously market selling rates fluctuate to a high degree in Peak and Lean Season as always and stands as a regular scenario.
- Limited numbers of Freighters are available thereby restricting the size of the shipments to be moved in a single lot.
- Primitive cargo handling facilities – warehouse-size just 70,000 Sqft outside and inside only 30,000 Sqft for loading and palletization which is insufficient.
- Shortage of cargo handling equipment and no stackyard for containers.
- Before cargo handover to the airline's cargo is kept under the sky exposed to sun and rain.
- Visible scenario of theft and other crimes are extensively seen in the open cargo complex.
- For import cargo usual scene is delay docs h/o and cargo kept under an open sky which causes CTN damage and gets wet in rain.

# 3Alliance core Proficiencies in Air Freight:

- 3Alliance Occupied Block Space Agreement with all major airlines like - ETIHAD, QATAR, SAUDIA, TURKISH AND CATHAY PACIFIC AIRLINE which offers the biggest cargo flight (747- 400 & 800) from DAC.
- 3Alliance provides an additional warehouse facility to our customers with 20,000 sqft space near DAC airport.
- 3Alliance provides a special freighter owned by 3Alliance in peak season to support our premium customers.
- Dedicated Air Export operations Team involved in loading and clearing at DAC airport.
- 24X7 Operations management and any time cargo receiving at DAC airport.
- 3Alliance offers a quick and faster solution of documentation for import cargo and also updates clients from time to time about cargo status.
